## EDUCATION

### Indira Gandhi National Open University, Delhi — *Integrated BCA-MCA*

June 2017 - June 2022

Currently pursuing integrated BCA( Bachelors in Computer Applications) - MCA( Masters in Computer Applications)

## EXPERIENCE

### Doof Research Private Limited(Internship) — *Web Development Intern*

December 2020 - January 2020

I mainly handled the front end of a project and created it from scratch.

## PROJECTS

### Face Detection — *A full-stack application*

It is a full-stack application in which I have used ReactJS for frontend, NodeJS for backend, PostgreSQL for database, and deployed Heroku.

See live: https://salty-dusk-04098.herokuapp.com/

### Robofriends — *A single page React Application*

It is a single-page React application that has a search box and a contact list. It filters the contact list according to the characters in the search box given by the user.

See live: https://xebec19.github.io/robofriends/

### Rajni Jokes — *A single page React Application*

It is a single-page React application that tells jokes on Indian superstar Rajni Kant.
